

**Exhibit C:**  
**REGISTRATION FEES**

**1. Registrar Fees are based on a sliding scale “Buy-Rate”**

Registrar will be extended a buy-rate for domain names registered as specified in the “Registrar Buy Rate” tables below. Registrar may markup the price of a domain registration, for a profit.

**2. Domain-Name Initial Registration Fee**

Registry Operator will charge Registrar the specified “buy-rate” per year for each domain name registered (the "Initial Registration Fee") in the Registry ccTLD. The Initial Registration Fee shall be paid in full by Registrar sponsoring the domain name upon receipt of corresponding invoice from Registry Operator.

**3. Domain-Name Renewal Fee**

Registry Operator will charge Registrar the specified “buy-rate” per year for each domain name registration renewal (the "Renewal Fee") in the Registry ccTLD. The Renewal Fee shall be paid in full by Registrar sponsoring the domain name upon receipt of corresponding invoice from Registry Operator.

**3. Fees for Transfers of Sponsorship of Domain-Name Registrations**

Where the sponsorship of a domain name is transferred from one Registrar to another Registrar, Registry Operator will require the registrar receiving the sponsorship to request a renewal of one year for the name. In connection with that extension, Registry Operator will charge a Renewal Fee for the requested extension as provided in item 3 above. The transfer shall result in an extension according to the renewal request, subject to a nine-year maximum on the future term of any domain-name registration. The Renewal Fee shall be paid in full at the time of the transfer by the Registrar receiving sponsorship of the domain name.

**4. Registrar Invoice**

Registry Operator will invoice Registrar for the applicable Registrar Fees on approximately the 1st of each month for the previous months domain registrations.

**5. Variable Fees**

The pricing for initial and renewal registrations set forth above may be adjusted by Registry Operator upon 30-days written notice to Registrar.

## 6. Domain Name Registration Fees

The registration fee charged for domains may be determined by Registrar, however may not exceed the retail prices offered by Registry Operator via its own Website ([www.dot.tk](http://www.dot.tk)), which are currently as low as 8.33 YTL per year for “Standard Domains” and up to 3125.00 YTL per year for “Special Domains”.

## 7. Bulk Transfer Fee

For a bulk transfer approved by Registry Operator under Section B- Approved Transfer of Exhibit B, Registry Operator will charge the gaining registrar USD 0 (for transfer of 50,000 names or fewer) or 65,000 YTL (for transfers of more than 50,000 names).

## 8. Factors used to Determine Registrar’s Volume Discount

Once a Registrar has achieved the required volume to obtain a greater discount, the Registrar remains at that discount rate until they either; (a): achieve the next breakpoint in volume registrations, thereby increasing their discount rate or (b): loses volume (which can occur in situations such as losses to other Registrars or losses due to termination/non-renewal of domains), in which case they will move back to the appropriate lower discount level based on their current volume.

## 9. Multi-Year Registrations

Registrants may register Standard (regular) Domains and/or “Special Domains” for a minimum of two (2) years and a maximum of nine (9) years. Registrants receive multi-year discounts for any registrations, which exceed two (2) years. The discount is calculated during the registration process according to the length of their license, which may be 3, 4, 5 or 9 years in length.

Registrar’s Discount applies to the registrant’s final discounted registration fee.

### Registrar Buy Rates “Standard Domains”

\*Note that the table assumes two-year registrations at full Registration Fees
